FOR BUS, CRJ and PSY FACULTY  
BERGEN COMMUNITY COLLEGE &  
THOMAS EDISON STATE COLLEGE PARTNERSHIP

During the fall 2012 semester Bergen Community College and Thomas Edison State College formed a partnership that benefits our students, our faculty and both colleges. We had an open house to explain the partnership to interested Business, Criminal Justice/Homeland Security, and Psychology students and had a very good turn-out. We will continue to send brochures to graduating students about the program, but the primary force behind making the partnership work are the Bergen faculty members in the three pilot areas. You are the Bergen representatives who have direct contact with the students who will most benefit from this partnership and we will send this flier to you each semester. BCC, TESC, Bergen Students and Bergen faculty benefit from this partnership!

Please share the following information with all of your students in all of the sections that you currently are teaching, and direct all students to the following web site that will provide them with all of the relevant information http://www.tesc.edu/bergen/.

The partnership will:

- Permit Bergen students to take up to 80 credits at Bergen that will go toward their BA degree. Thus, students will be able to earn a bachelor’s degree from TESC and two-thirds of the degree will be at the low BCC tuition rates.
- Lead to the waiver of the sizable portfolio assessment fee that TESC charges all other incoming students.
- Enable BCC students to graduate with only 40 credits from TESC remaining for a BA degree.
- Give students the opportunity of graduating from TESC more quickly and less expensively than via other alternatives.

All of TESC’s courses are online and the college has been given a glowing evaluation by the Middle States evaluation team.

Bergen’s transfer counselors have been made aware of this partnership and will help students with the specifics in each area. Please contact Dianna O’Connor for further assistance at doconnor@bergen.edu.

BCC & TESC have agreed on which courses need to be taken in addition to the required courses indicated in the college catalog for students who have chosen concentrations in one of the three areas. The five additional courses appear on the back of this flier:

Thanks!!!
Dr. Mark Kassop
**BSBA in Accounting &**
**BSBA in Accounting for CPAs**
**BSBA in General Management**

**BSBA in Marketing**
BNF-202: Asset Management
