1. The new Statewide Process for Approving General Education Courses was discussed with emphasis on the new schedule, which means that courses approved at Bergen this semester will not be able to make the Gen Ed list until Spring 2012. Members of the committee were encouraged to report this fact to their departments at their earliest convenience.

2. HIS 132 The Spanish Speaking Caribbean & Central America Since 1898 course was briefly discussed for approval but the Committee felt that it needed work in two areas before officially being voted on: 1) The course description needs to be aligned with the College requirements, and 2) The learning assessments need to be specific enough to demonstrate that general education goals are being assessed in every section of the course.

The meeting was adjourned at 1:25.
