Dr. Tobyn De Marco, Department of Philosophy and Religion, Elisabeth A. Lloyd’s “The Case for Female Orgasm: Bias in the Science of Evolution” excerpt
Women’s History Month 2013 Recognizes Women Inspiring Innovation through Imagination

Bergen Community College’s Women’s History Month Committee 2013 is privileged and excited to celebrate women who inspire innovation through imagination. This year we focus on women’s contributions in science, technology, engineering, and mathematics – the STEM fields – but also broaden the lens to capture women at the center of the environmental movement, cinema, business, literature, and global diplomacy.

Throughout the month of March, the committee and co-sponsors will host a range of events on the Paramus campus and Bergen Community College at the Meadowlands that highlight women from the past, present, and future. The WHM 2013 committee warmly invites you to participate in one, some, or all of these events. Come help us celebrate all women as they Inspire, Innovate, and Imagine!
