

Testimonials

"Taking part in this course has transformed my teaching. My students are full of commendation for my delivery of lessons and the upgrade in my syllabus and rubrics." Olugbenga Ige, Physical Science

"I love the ACUE program! I have found it to be an incredible resource full of resources and innovative teaching methods." Mary Bays, Fashion Apparel Design

"It's the best opportunity for effective teaching practices. Not only is the ACUE program organized and developed by notable educators across the country, but also it provides a venue for colleagues to engage in discussions of evidence-based research, best practices, course design and self-reflection." Iris Bucchino, Student Success Course Coordinator

ACUE

Association of College
and University Educators

One of the primary catch terms of contemporary higher education is "student success". The reality is that the success of students falls squarely on the engaged and connected teaching practices of our faculty.

Faculty accredited by the ACUE program are leading the charge in our campus-wide promotion of engagement and connectivity in the classroom. They are recognized for their tireless pursuit of excellence in teaching practices.
