

AIMS Program at Bergen Community College:

Achievement...Inspiration...Motivation...Success!

What is the purpose of the AIMS Program?

AIMS is a proven academic program designed for students who will benefit from additional support in reading, writing, critical thinking, and mathematical skills by participating in specially designed learning communities comprised of three courses.

Who places into the AIMS program?

Students who place into the AIMS program do so as a result of placement scores in both Arithmetic (59 and below) and English (159 and below).

Who administers the AIMS program?

Students with questions about the AIMS program should contact Professor Fitzgerald, AIMS Program Coordinator, by email at efitzgerald@bergen.edu.

Can students challenge their placement in the AIMS program?

Students who think their placement scores do not reflect their ability are able to take a challenge test before registering for courses. Visit BCC Testing Center's website at: <http://www.bergen.edu/Testing> for more information.

What do I do next?

Please look on the other side of this sheet for Academic Advising session dates and times.

NOTE: You must attend an advising session; if you are unable to attend, have questions or believe that you need to be waived out of your AIMS placement, please contact Prof. Fitzgerald at efitzgerald@bergen.edu to schedule an appointment.

**Please see reverse for workshop
times and locations!**

CONNECT + (AIMS) ADVISING WORKSHOPS SPRING 2018

**All workshops will take place in Library 222.
