Justification

EBSCO is a leading comprehensive subscription service for periodicals for academic libraries. Submitted By

Dr. Eric M. Friedman, President
Dr. Brock Fisher, Vice President of Academic Affairs

Justification

The Bergen Community College Sidney Silverman Library has historically purchased electronic resources through WALDO (Westchester Academic Library Directors Organization), a membership organization supporting the procurement and administration of electronic information services for libraries. WALDO has turned over all purchasing administration responsibilities to LYRASIS, a non-profit member organization serving and supporting libraries, archives, museums, and cultural heritage organizations around the world. As a result, the College's electronic resource renewals are now processed through LYRASIS, which has supported the procurement and administration of electronic information services for libraries since 2009. Additionally, LYRASIS provided discounts to annual subscriptions of full-text electronic databases, which are available 24/7.

Action Requested

Authorization to award Public Bid P-2363 West Hall and Health Professions Building Media System Tech Upgrade to Technotime Business Solutions in the amount of \$304,100.00

Justification

Immersive Classrooms play a significant role in the future of education, enabling connections between local and remote learners and faculty in having a learning environment. Immersive Learning supports students and faculty in having a more engaging and participative role in the learning process via connections that are made with modern audio and visual technologies. The College seeks to further accommodate the growing demand to support students that are attending classes virtually both during and after the Covid-19 pandemic. As a result, there is a need to implement "Immersive Classroom" technologies in the Health Professions and West Hall buildings. These classroom technologies consist of high-quality cameras, microphones, and speakers in each classroom.

The College received three bids, with the lowest bid from CDW Government LLC. Due to the submission of an incomplete bid by CDW Government LLC (the bid price was for supplies only and did not include installation or services), their bid is rejected. The second low bidder with a complete bid, Technotime Business Solutions, was selected.

Submitted By

Dr. Eric M. Friedman, President

BOARD OF TRUSTEES ACTION I-2
Approval Date: August 2, 2022

Resolution

To approve the naming of the Math and Science Tutoring Center as the **Professor R. Neil Ender Memorial Mathematics and Science Walk-in Center**, effective October 20, 2022.

Submitted By

Dr. Eric M. Friedman, President
Mr. Ronald G. Miller, Executive Director, BCC Foundation
Mr. Wilton Thomas Hooke, Chief Financial Officer
Mr. Nathaniel Saviet, Vice President of Facilities

Action Requested

To approve the naming of the Math and Science Tutoring Center as the **Professor R. Neil Ender Memorial Mathematics and Science Walk-in Center**, effective October 20, 2022.

Justification

On June 21, 2022 the BCC Foundation Board formally accepted the proposal agreed to by the Ender family to transfer \$250,000 from the extraordinary earnings on an existing Ender endowment to create a new endowment in support of Mathematics and Science Tutoring.

The action creates a new endowment with the donor interest/request for the naming of the Math and Science Walk-in Center in the Pitkin Building (room # L-131) - adjacent to the Tutoring Center - and part of the Henry and Edith Cerullo Learning Assistance Center (CLAC). The name of the center will become: **Professor R. Neil Ender Memorial Mathematics and Science Walk-in Center**.

The BCC Foundation Board of Directors fully support this naming request.

The earnings from the new endowment will be used for STEM tutorial support, including math specialists and faculty to train an increased and renewable cohort of tutors. Learning effective tutoring techniques is an invaluable skill that positions our tutors to more effectively assist students. These enhanced techniques also improve the tutors' ability to articulate instructions and draw out salient concepts and ideas from the students they assist. The funds are not to be used for capital improvement or renovation.

Currently, the CLAC, including the Mathematics / Science Walk-in center, assists close to 6,000 students each year.
