Other: 2.0%

MISSION

Bergen Community College provides accessible and transformative programs and services to its diverse community. As a comprehensive community college, we are committed to student success, innovation, and inclusivity.

VISION

Bergen Community College will be:

- A first-choice option for its community.
- A national model for innovation and partnerships.
- An institution recognized for its ability to meet the needs of an ever-changing student population in a landscape of evolving employers' workforce needs.

VALUES

Consistent with Bergen Community College and who we are as a community, these core values guide our daily work:

- **Commitment:** We are committed to providing an education in the liberal arts, sciences, technical fields, and a variety of non-credit programs that foster critical thinking, facilitate upward mobility, and instill a sense of purpose.
- **Creativity:** We are imaginative and innovative in promoting success for our students and in accomplishing our goals.
- **Collaboration:** We emphasize teamwork and acknowledge and take pride in the contributions of others.
- **Communication:** We regularly and openly share what we do with both internal and external community members.
- **Care:** We identify, prioritize, and resolve issues by leading with an ethic of care.
- **Challenge:** We challenge ourselves to improve upon our programs and services.
- **Celebration:** We acknowledge, honor, and take pride in the quality of our work and the work of others.

New Distinct Grants Won in FY23

USDA- NIFA- NEXTGen is a \$4.5 million four-year grant that Bergen Community College won in June 2023. Working with Rutgers University, New Brunswick, the grants aim to offer revised curriculum, new degree programs and smooth transfers in four-year degree programs in various FAHN, Horticulture and HRM programs offered at BCC and Rutgers. Free dual enrollment opportunities for our high school partners in Culinary Arts and Horticulture are also part of the initiative. Greens-do-Good, our non-profit partners in the grant, will provide opportunities to students with special needs in vertical farming and other Horticulture related jobs and internships.

USDA-NIFA-HSI: Bergen is awarded \$996,252 for a period of four years to create Food and Agriculture Science Education Pathways. USDA NIFA HSI grant funding is a collaborative effort for Bergen and Rutgers University to enhance the quality of teaching and learning to align more closely Bergen's Culinary, Food, Plant, Biology, Horticulture and Environmental Science curriculum to meet the prerequisite course requirements of Rutgers in agriculture and food systems.

NJDOL NJBUILD is an 18 months, \$300,000 grant to bring women and other minorities in the construction trade. The continuing education division is offering a 26-week program to earn a certificate in construction trade. Eligible students will earn stipend, transportation vouchers, books, and childcare support during the 26-week program period.

NJ OSHE awarded \$ 942,553.20 a New Jersey Higher Education Capital Facilities Grant under the Higher Education Technology Infrastructure (HETI) fund to enhance a safe and inclusive student learning environment at Paramus campus.

NJOSHE working with New Jersey Community College Consortium for Workforce and Economic Development awarded \$300,000 to BCC to develop the Direct Support Professional Career Development Program (DSPCDP). The goals of the DSPCDP are to recruit and train individuals for careers as direct support professionals as well as upskill those already working in this field.

National Science Foundation's (NSF) Northern New Jersey Bridges to Baccalaureate (NNJ- B2B) project is a \$270,309 sub-award in collaboration with four community colleges, including Passaic County Community College (lead applicant), Bergen Community College, Hudson County Community College, and County College of Morris. BCC as a partner college, is committed in assisting under-represented minority students at our campuses in enrolling, persisting, and completing STEM associate degrees and then transferring and succeeding in STEM bachelor's degrees at four-year colleges and universities.

NJ OSHE working with New Jersey Community College Consortium for Workforce and Economic Development awarded \$300,000 to BCC to develop the Direct Support Professional Career Development Program (DSPCDP). The goals of the DSPCDP are to recruit and train individuals for careers as direct support professionals as well as upskill those already working in this field.

Trees for School: OSHE facilitated a Trees for Schools grant working with TCNJ. The goal of the grant is to plant more trees in urban campuses to provide tree equity for all. Bergen is awarded \$250 K to plant trees on the Paramus campus. The project will be completed in Spring 2024.
