The 2017-2018 Edition of the Bergen Community College Fact Book presents data relating to enrollment, graduates, faculty and other personnel, college finances and demographics. The Fact Book has several purposes: to provide data which may assist the administration in planning and decision making; to give the college community an overview of the student, personnel and financial profiles of the college; and to serve as a reference document which answers many of the most often-asked questions about the college.

Bergen Community College was founded in 1965 to satisfy the region's need for a convenient, affordable and comprehensive higher education destination. The College currently enrolls over 14,000 students in credit courses. The College's three instructional sites in Paramus (main campus), Hackensack (Ciarco Learning Center) and Lyndhurst (Bergen Community College at the Meadowlands) offer exceptional opportunities for students enrolled in degree, continuing education and adult education programs.

The College boasts an accomplished faculty, cutting-edge facilities and opportunities for cultural awareness, civic engagement and service-learning. Bergen has the distinction of being New Jersey's No. 1 ranked institution for associate degree graduates, a title the College has held dating back to 2014.

Graduating students not only utilize the statewide transfer agreement to attend New Jersey's four-year institutions, but use Bergen's reputation as a top community college to propel them to institutions nationwide. Students in career programs enter the workforce with the skills they need in order to succeed.

Within the last decade, Bergen has seen considerable growth in both size and facilities. The biggest physical addition to the college has been the completion of a new Health Professions Integrated Teaching Center in Paramus, NJ featuring state-of-the-art dental hygiene equipment, a simulated operating room, and radiography and ultrasound labs. The 62,000 square foot center is the first of its kind in the region. Recently completed construction includes a new Paramus Road sign and construction continues on the gym ceiling and the retiling of the pool at the Paramus location.

In 2016, Bergen Community College went through its ten-year self-study review by the Middle States Commission on Higher Education (MSCHE) and reaffirmed its accreditation.

- Students from over 140 different countries of citizenship attended Bergen in Fall 2017, with the largest groups of non-U.S. students hailing from the Republic of Korea, Colombia, the Dominican Republic, Peru, and Turkey.
- More than three-quarters of Fall 2017 enrolled students resided in Bergen County. The top five Bergen County municipalities where students lived were Garfield, Hackensack, Teaneck, Lodi and Fair Lawn. Paramus, home to the College's main campus, was ninth on the list with 363 students also calling it home.

- Fifty-four percent of Fall 2017 students were between the ages of 18 and 21 years old. This would suggest that although it is often assumed that community college students are non-traditional (i.e. delayed enrollment into postsecondary education) Bergen seems to serve a large amount of traditional students (i.e. directly out of high school).
- Underreported demographics continues to be an issue at Bergen. Race/Ethnicity was missing for 3,220 students in Fall 2017 (22.9%). Gender was missing for 366 students (2.6%) and birthdates were missing for 11 students (.1%).

Student Enrollment Trends

- Full-Time Bergen students outnumbered Part-Time Bergen students in Fall 2017 – continuing a trend established in Fall 2004. Back then the margin of separation between the two types of students was relatively small at 51% Full-Timers to 49% Part-Timers. In Fall 2017, the difference was 55% Full-Timers to 45% Part-Timers. However, the difference between the two groups has been getting smaller in recent years. This might be an indication that Bergen is returning to a more even split between Full-Time students and Part-Time students.

- The enrollment decrease from Fall 2016 to Fall 2017 hit Transfer Programs the hardest. Enrollment in Transfer Programs decreased from 11,406 to 10,812 from one Fall to the next – a decrease of 5.2%. Enrollment in Career Programs and Non-Degree enrollment actually increased albeit slightly. Career programs saw a 2.1% increase from 2,077 enrolled to 2,121 enrolled while Non-Degree enrollment increased by 9.0% from 1,036 students to 1,129 students.
- Bergen uses four classifications to rank students instead of the traditional freshman, sophomore, junior, senior system. Instead Bergen has First-Time students (brand new to higher education), Transfer students (brand new to Bergen, but not higher education), Stop-Out/Re-admit students (attended Bergen in the past, but did not attend Bergen the previous semester), and Continuing students (returning students from the previous semester to the current semester).

These four Registration Statuses are used to track Bergen students and can help show why enrollment has been decreasing. The group that has taken the biggest hit over the last five years is the Continuing student group. Bergen is not retaining students once they start as evidenced by a 14% decrease in the Continuing student population between Fall 2013 (9,258 Continuing students) and Fall 2017 (7,948 Continuing students). Continuing student enrollment has decreased at a faster rate than the college overall (a 14% decrease compared to an 11% decrease between Fall 2013 and Fall 2017).

- Bergen has increased its Evening/Weekend and online offerings in recent years, but while online enrollment continues to increase (11.3% of all credits generated in Fall 2017 compared to only 8.4% of all credits generated in Fall 2013), Evening/Weekend enrollment has decreased (19.1% of all credits generated in Fall 2017 and 20.1% of all credits generated in Fall 2013). Overall, Bergen remains a heavily enrolled daytime school (69.6% of all credits enrolled in Fall 2017).
- The most highly attended courses in Fall 2017 were in the Mathematics discipline (5,910 enrollments and 19,246 credits generated). The most highly attended single course in Fall 2017 was WRT-101 (2,522 enrollments and 7,566 credits generated).

- Hybrid classes at Bergen combine Online instruction with occasional in-class meetings on campus with the professor. Over 1,600 students were enrolled in Hybrid classes in Fall 2017. One hundred and forty-nine were enrolled exclusively in Hybrid classes while the remaining 1,473 were enrolled in some, but not all Hybrid classes.
- While traditional Face-to-Face classes are still the overwhelming majority of classes taught at Bergen, Online and Hybrid classes are increasing in popularity. In Fall 2013, 88.9% of all credits generated were from Face-to-Face classes with 8.4% generated from Online classes and only 2.7% generated by Hybrid classes. In Fall 2017, credits generated by Face-to-Face classes decreased to 84.2% of all credits, credits generated by Online classes increased to 11.3%, and credits generated by Hybrid classes increased to 4.5%.
- The most popular Online course disciplines in Fall 2017 were Psychology, Mathematics, Philosophy and Religion, and Sociology. Psychology offered 11 courses online in Fall 2017, enrolled 635 students and accounted for 1,905 credits.
- The most popular Hybrid course disciplines in Fall 2017 were Information Technology, Dental Hygiene, the American Language Program, and Writing. Information Technology offered 10 Hybrid courses, enrolled 374 students and accounted for 1,122 credits.
- Business Administration offered the most Distance Education courses in Fall 2017 (Online or Hybrid courses). They offered 14 courses in either of the modalities, enrolled 500 students and accounted for 1,500 credits.

Remedial Education

- The number of students enrolled in at least one remedial course (EBS, ALP, or remedial MAT) has generally decreased over the past five Fall semesters, with an especially large decrease between Fall 2014 and Fall 2015. In Fall 2013, 5,107 students were enrolled in at least one remedial course. By Fall 2017, that number was down to 3,742 students – a 26.7% decrease.
- Over the last five Fall semesters, remedial enrollment has consistently been highest in MAT courses relative to EBS and ALP courses. In Fall 2017, 2,393 students were enrolled in at least one remedial MAT course, compared to 1,528 in at least one remedial EBS course and 703 in at least one ALP course.
- Among remedial course-takers in Fall 2017, the most prevalent group of students took only remedial MAT courses (1,511 students) without taking EBS or ALP courses. The next most prevalent group of students took both remedial MAT and EBS (873 students).
- The percentage of course credits generated from remedial courses has generally declined over the last five Fall terms, falling from 16.9% of all credits generated in Fall 2013 to 15.1% of all credits generated in Fall 2017.
- The single most popular remedial course in Fall 2017 was MAT-011 (Basic Mathematics) with 1,150 course enrollments, followed by MAT-040 with 768 course enrollments.

- Bergen Community College's three instructional sites are located in Paramus (main campus), Hackensack (Ciarco Learning Center) and Lyndhurst (Bergen Community College at the Meadowlands). In addition to these three campuses, Bergen has also offered classes at a number of other locations in Bergen County including Dwight Morrow High School in Englewood and the Law and Public Safety Institute in Mahwah.
- The main campus in Paramus remains the most popular with 84.0% of students taking all of their classes there in Fall 2017. Bergen Community College at the Meadowlands has grown in recent years aided by programs that call Lyndhurst home like the Paramedics program. Over 750 students took classes exclusively at the Lyndhurst campus in Fall 2017.
- Although the Ciarco Learning Center has a robust Continuing Education student population, its credit-side offerings are minimal. Only eight students were taking all of their Fall 2017 classes in Hackensack and another 45 were taking some, but not all of their classes in Hackensack.
- Over 80% of the credits generated in Fall 2017 were from the Paramus campus. The Lyndhurst campus generated around 7% of all credits – a number that has remained consistent for the last four Fall semesters.
- The top course discipline taught at the Paramus campus was Mathematics with almost 5,000 enrollments. The top course discipline taught at the Lyndhurst campus was also Mathematics with over 500 enrollments. The top course discipline taught at the Hackensack campus was Hotel/Restaurant/Hospitality with 40 enrollments. In the coming years, this number is projected to increase as Bergen moves its entire culinary program to the Ciarco Learning Center in Hackensack.

- Bergen Community College's degrees and certificates are broken down into two main areas – Transfer Programs and Career Programs. Transfer Programs, designed to give students an education that is easily transferrable to a four-year college, include the Associate of Arts (A.A.) degrees, Associate of Science (A.S.) degrees, and the Associate of Fine Arts (A.F.A.) degrees. Career Programs, designed to give students the skills to immediately join the workforce, are divided into Associate of Applied Science (A.A.S.) degrees, Certificates (CERT.) and Certificates of Achievement (C.O.A.).
- Associate of Science degrees continued to be the most popular offerings at Bergen Community College with almost 9,000 students enrolled in A.S. degrees in Fall 2017 (62.4%). For comparison, the next closest offering in terms of enrollment was the Associate of Arts area, which enrolled 1,987 students in Fall 2017 (14.1%).
- The College's degree and certificate offerings are also broken up into four main divisions – the Humanities Division, the Business, Arts and Social Sciences Division, the Mathematics, Science and Technology Division, and the Health Professions Division.
- The Business, Arts and Social Sciences Division is the largest division at Bergen in terms of enrollment with over 8,000 students enrolled in their offerings in Fall 2017 – more than half of all the students at Bergen.

In an effort to provide consistent and accurate data, the Center for Institutional Effectiveness, in accordance with the Academic Deans and the Academic Department Chairs, has created the following glossary of program codes. This glossary shows how codes have been combined and reported together to account for changes in codes due to program modifications, closures and other alterations. For instance, the Law Enforcement program includes students registered under the active code of AAS.HS.LAWENF as well as students registered under the closed code AAS.HS.CRIMJ to reflect the code change that the program underwent.

In an effort to provide consistent and accurate data, the Center for Institutional Effectiveness, in accordance with the Academic Deans and the Academic Department Chairs, has created the following glossary of program codes. This glossary shows how codes have been combined and reported together to account for changes in codes due to program modifications, closures and other alterations. For instance, the Law Enforcement program includes students registered under the active code of AAS.HS.LAWENF as well as students registered under the closed code AAS.HS.CRIMJ to reflect the code change that the program underwent.

College Outcomes

The following College Outcomes section is made up of a collection of reports that Institutional Research produces on an annual basis. As opposed to looking at a current student body like other sections, the College Outcomes section focuses on certain student cohorts that started at Bergen at some point in the past. These cohorts are then tracked for outcomes such as retention, graduation, and transferring.

- First-Time, Full-Time, Degree-Seeking students from Fall 2016 had a one-semester retention rate of 81.0% (retained to Spring 2017) and a one-year retention rate of 64.9% (retained to Fall 2017). Of the cohorts studied, the highest one-semester retention rate was for the Fall 2009 cohort students, 85.0% of whom were retained to Spring 2010. The highest one-year retention rate was for the Fall 2013 cohort students, 68.7% of whom were retained to Fall 2014.
- First-Time, Part-Time, Degree-Seeking students from Fall 2016 had a one-semester retention rate of 65.2% (retained to Spring 2017) and a one-year retention rate of 52.5% (retained to Fall 2017). Of the cohorts studied, the highest one-semester retention rate was for the Fall 2009 cohort students, 68.1% of whom were retained to Spring 2010. The Fall 2009 cohort students also had the highest one-year retention rate as 53.9% were retained to Fall 2010.
- Twenty-two percent of First-Time, Full-Time, Degree-Seeking students from Fall 2014 graduated from Bergen within three years (before Fall 2017). This is the highest graduation rate for any cohort studied (going back to the Fall 2010 cohort).
- The three-year graduation rate for females from the Fall 2014 First-Time, Full-Time, Degree-Seeking cohort is 25%, which is higher than the overall graduation rate (22%) and the graduation rate for males (19%).
- Fifteen percent of First-Time, Full-Time, Degree-Seeking students from the Fall 2014 cohort transferred without graduating from Bergen within three years. Some of these students transferred to a four-year institution while others transferred to another two-year institution.
- Six percent of First-Time, Part-Time, Degree-Seeking students from the Fall 2014 cohort graduated from Bergen within three years (before Fall 2017). This is a lower graduation rate than the First-Time, Part-Time, Degree-Seeking students from Fall 2013 who had a graduation rate of 8%.
- The transfer without graduating rate for First-Time, Part-Time, Degree-Seeking students is much higher than the graduation rate. Thirteen percent of First-Time, Part-Time, Degree-Seeking students from Fall 2014 transferred without graduating in three years.

Retention Rates for Fall 2008 – Fall 2016 First-Time, Full-Time, Degree-Seeking Cohorts

First-time, full-time, degree-seeking (FTFTDS) student cohorts were calculated for the Fall 2008 – Fall 2016 semesters. The students in each cohort were retained if enrolled (regardless of attendance status) as of the 10th day for each semester following their first. Note that the sixth semester (150% of normal time) is identified, as it corresponds to the duration used generally to identify completion rates. The cohort with the highest retention percentage each semester is identified in grey.
