PC.3 Recognize the relationships among systemic disease, medications and oral health that impact overall patient care and treatment outcomes.	PC.4 Identify patients at risk for a medical emergency and manage the patient care in a manner that prevents an emergency.	PC.5 Use patient assessment data, diagnostic technologies and critical decision making skills to determine a dental hygiene diagnosis, a component of the dental diagnosis, to reach conclusions about the patient's dental hygiene care needs.	PC.6 Utilize reflective judgment in developing a comprehensiv e patient dental hygiene care plan.	PC.7 Collaborate with the patient and other health professionals as indicated to formulate a comprehensive dental hygiene care plan that is patient-centered and based on the best scientific evidence and professional judgment.	PC.8 Make referrals to professional colleagues and other health care professionals as indicated in the patient care plan.	PC.9 Obtain the patient's informed consent based on a thorough case presentation.	PC.10 Provide specialized treatment that includes educational, preventive and therapeutic services designed to achieve and maintain oral health. Partner with the patient in achieving oral health goals.	PC.11 Evaluate the effectiveness of the provided services and modify care plans as needed.	PC.12 Determine the outcomes of dental hygiene interventions using indices, instruments, examination techniques and patient self- reports as specified in patient goals.	PC.13 Compare actual outcomes to expected outcomes, reevaluating goals, diagnoses and services when expected outcomes are not achieved.	other roles as they evolve for the dental hygienist.	PGD.2 Develop practice management and marketing strategies to be used in the delivery of oral health care.	PGD.3 Access professional and social networks to pursue professional goals.
