Cave explorer, Chris Nicola presents "No Place on Earth." Nicola narrates the story of how five Ukrainian Jewish families survived the Holocaust by taking refuge in a cave for more than 500 days. He explains how he spent 10 years finding and interviewing the survivors, to confirm what he had accidentally discovered; Plus 10 years in bringing about both a book "The Secret of Priest's Grotto" and a documentary No Place on Earth (www.noplacenearthfilm.com). Nicola runs the Priest's Grotto Heritage Project; a genocide awareness project in which the grandchildren of those who lived in Priest's Grotto Cave are working with the grandchildren of those who lived above the cave in building an exhibit to honor what those courageous 38 did to survive the Holocaust.
