Level I Students

Dear Level One Nursing Student:

Welcome to the Nursing Program at Bergen Community College. We have a proud 40+ year history of educating nurses to provide health care to area residents and beyond. The faculty and nursing administration rigorously and regularly review student and program outcomes always seeking new ways to improve the teaching/learning process.

As a result of our studies, we are pleased to introduce a program to further aid nursing students to learn the theory and clinical application to nursing practice. This program is affiliated with ATI testing and remediation. You may recognize the name because the entrance examination you took to qualify for the Nursing Program is an ATI product. The program, utilized by numerous nursing programs throughout the country, will include the following products:

- Tutorials and Simulations
- Practice Assessments
- Proctored Assessments
- Active Learning Templates
- Print and eBooks

This program will provide YOU with personalized electronic remediation content; it will help you address your weaknesses. Your performance will be assessed in accordance with the categories tested on the ATI exit examination AND the national licensing examination, (NCLEX-RN) that you will be required to take to become a registered nurse.

We wish you the very best and will share in your success as you achieve your goal of becoming a registered nurse.

Sincerely,

Darlene Zales-Russamano
