Course Description

PSY 1xx Sport Psychology is an introduction to sport psychological theory, research, and application. This course examines how psychological factors affect an individual's physical performance, and how participation in sport and exercise enhances psychological health and personal well-being. The topics covered include: personality; motivation; arousal and anxiety; group cohesion and leadership; effective communication; imagery and skills training; and psychological reactions to athletic injuries.

3 lectures, 3 credits
Prerequisites: None
Co-requisites: None
Student Learning Objectives: As a result of meeting the requirements in this course, students will be able to:

1) describe psychological theories and research related to sport and exercise
2) identify psychological factors that affect physical performance in sport
3) describe factors that contribute to group cohesion and leadership ability
4) apply sport psychological phenomena to personal health and well-being

Means of Assessment: In order to meet these Student Learning Objectives, various assessment types will be utilized. The major assessment types used in this course are graded class discussions, objective tests and examinations, essay tests and examinations, student presentations in class (individual or group), and writing assignments (papers, short essays, book reports, etc.)

Course Content

The overall purpose of this course is to examine how psychological concepts can be applied in sport and exercise settings. Theory, research and practice of sport psychology all should be addressed. More specifically, this course should cover (if not all at least most of) the following topics:

- Personality and sport
- Motivation
- Reinforcement and intrinsic motivation
- Group cohesion
- Leadership
- Communication
- Improving performance through skills training
- Imagery
- Coping with adversity
- Concentration
- Sport and psychological well-being
- Athletic injuries and psychology

Special Features of the Course (if any) [to be designated by the instructor]

E.g., the use of learning technologies in the course (Internet, PowerPoint, etc.); the inclusion of technological literacy and/or information literacy learning in the course; etc.

Course Texts and/or Other Study Materials

Suggested textbook:
Research, Thinking, Writing, and/or Examination Requirement(s)

Psychology 1xx requires students to complete a variety of critical thinking and writing assignments. Students will be encouraged through classroom discussions to think about, analyze and use basic psychological concepts, major theories, and various issues regarding sport psychology. Memorization of key concepts and theories should be thought of as the first, not the final, stage of learning the course material. Students are expected to engage in various in-class as well as out-of-class writing assignments. These may include journals, research papers, personal essays, book reviews, examinations containing essay components, and so forth.

Grading Policy

A student’s final grade is based primarily on his/her performance on the assignments and the mastery of the material covered in the course. In determining a student’s final grade, a minimum of three assignments are to be employed. They may include multiple choices, definitions and essay type questions examinations, a written term project, and an oral presentation to the class. Class participation may also be part of the final grade. Instructors may have their own policy on the make-up exams.

Attendance Policy

BCC Attendance Policy:

All students are expected to attend punctually every scheduled meeting of each course in which they are registered. Attendance and lateness policies and sanctions are to be determined by the instructor for each section of each course. These will be established in writing on the individual course outline. Attendance will be kept by the instructor for administrative and counseling purposes.

Attendance Policy in this Course:

To be determined by the instructor
