

**Bergen Community College  
Division of Health Professions  
Department of Radiography**

**RAD 280 – Principles of Image Production and Acquisition**

**Basic Information About Course**

Course Typically Offered: Summer  
Semester and Year: Summer, Year 1  
Course and Section Number: RAD 280  
Locations: HP-124

**Course Description**

This course involves the study of the theoretical and practical aspects of image creation. The photographic, geometric, and imaging systems will be explored. Evaluation of changes caused in the radiographic image with equipment and recording systems, demonstrated, and discussed. Also included in this course are the basic concepts of the origin and effects of ionizing radiation on the patient and radiographic image.

Credits – 3 CR, Lecture [3.00]  
Prerequisites - RAD 181 Radiography I  
RAD 182 Radiography Practicum I  
RAD 276 Principles of Imaging Equipment

Co Requisites - RAD 283 Summer Radiography Practicum

**Student Learning Objectives:** As a result of meeting the requirements in this course, students will be able to:

1. Identify, describe, and explain the functions of image acquisition equipment.
2. Perform imaging procedures according to imaging standards. Adjust the procedure based on the limitations of the patient and equipment.
3. Identify and critique a radiographic image based on grayscale, brightness, and radiation exposure.
4. Educate a patient before a procedure on the risks and benefits of radiographic imaging.
5. Apply their knowledge of radiation safety to protect the patient and participating occupational workers.

## **Means of Assessment**

Students in this course will:

1. Complete two tests in addition to a midterm and final examination in class.
2. Demonstrate their understanding of material through discussion.
3. Demonstrate their understanding of material through the design and creation of a radiation exposure project.

## **Course Content**

In this course, radiography students will develop an entry level knowledge of components, principles of digital imaging systems, and operation of electronic equipment found in diagnostic radiography. Factors that impact image acquisition, display, archiving, and retrieval are discussed. Principles of digital imaging systems and quality assurance are introduced.

## **Course Texts and/or Other Study Materials**

Fauber, Terri. *Radiographic Imaging and Exposure 6th Edition*. Mosby, 2020. ISBN 978-0323661393

Johnston, James & Fauber, Terri. *Essentials of Radiographic Physics & Imaging 3rd Edition*. Mosby, 2019. ISBN 978-0323566681

Callaway, William. *Mosby's Comprehensive Review of Radiography: The Complete Study Guide and Career Planner 8th Edition*. Mosby, 2022. ISBN 978-0323694889

## **Research, Writing, and/or Examination Requirement(s)**

### **Quizzes, Short Writing Assignments**

Students may be given short writing assignments or quizzes to complete. Timelines for completion will be determined by the course instructor.

**Midterm and Final**

The midterm and final will be objective, computerized tests that demonstrate the student's ability to identify and apply course material. Students will be expected to evaluate various imaging scenarios and determine the appropriate modifications to imaging.

**Grading Policy****Recommended Grade Structure**

Written assignment and participation grading will be defined by the instructor.

The Radiography program grading scale is outlined in the program handbook available here <https://bergen.edu/radiography/more-info/>

**Recommended Policy for Late Assignments:**

Students will receive a deduction of 5% of the final grade for the assignment for each day late.

**Attendance Policy****BCC Attendance Policy:**

All students are expected to attend every scheduled meeting of each course in which they are registered. Attendance and lateness policies and sanctions are to be determined by the instructor for each section of each course. These will be established in writing on the individual course outline. Attendance will be kept by the instructor for administrative and counseling purposes.

**Attendance Policy for this Course.**

To be determined by the instructor.

**Other College, Divisional, and/or Departmental Policy Statements****Accommodations for Disabilities:**

Bergen Community College aims to create inclusive learning environments where all students have maximum opportunities for success. Any student who feels he or she may need accommodation based on the impact of a disability should contact the Office of Specialized Services at 201-612-5269 or via email at [ossinfo@bergen.edu](mailto:ossinfo@bergen.edu) for assistance.

## **Statement on Mental Health and Wellbeing**

Mental health concerns or stressful events may lead to diminished academic performance or reduce a student's ability to participate in daily activities. Bergen Community College has licensed Personal Counselors available to assist you with addressing these and other concerns you may be experiencing.

You can learn more about the confidential mental health services available on campus via the Health and Wellness Center at [www.bergen.edu/personalcounseling](http://www.bergen.edu/personalcounseling)

**BCC Statement on Plagiarism:** Plagiarism is a form of academic dishonesty and may be a violation of U.S. Copyright laws. Plagiarism is defined as taking someone else's words, opinions, or ideas and claiming them as one's own.

Examples of plagiarism include instances in which a student:

- knowingly represents the work of others as his/her own
- represents previously completed academic work as current
- submits a paper or other academic work for credit which includes words, ideas, data or creative work of others without acknowledging the source
- uses another author's exact words without enclosing them in quotation marks and citing them appropriately
- paraphrases or summarizes another author's words without citing the source appropriately

Instructors may define their own policies regarding plagiarism. See the Academic Regulations section of the college catalog for college policies.

## Sample Course Outline

| Week | Topic/Activity   | Assignment/Events  |
|------|--|--------------------|
| 1    | Orientation & Digital Radiography Characteristics                    |                    |
| 2    | Digital Radiography Characteristics & Flat Panel Digital Fluoroscopy |                    |
| 3    | <b>Test 1</b>  |                    |
| 4    | X Ray Production   |                    |
| 5    | Technical Factors  |                    |
| 6    | <b>Midterm</b>   |                    |
| 7    | Scatter Control  |                    |
| 8    | Digital Image Processing   |                    |
| 9    | <b>Test 3</b>  |                    |
| 10   | Radiographic Exposure Selection                                      |                    |
| 11   | Imaging Considerations   | Course Project Due |
| 12   | <b>Final Examination</b>   |                    |
