

## Allow / Deny Access to Your Moodle Course

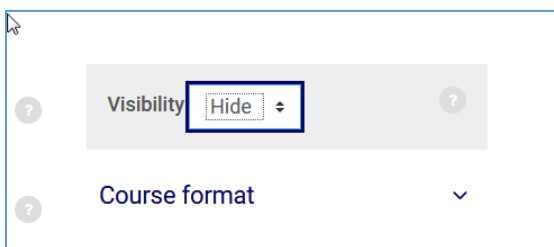

### How do I allow access to students on Moodle?

Log into Moodle and open your course section.

1. From within the course, click on the administration tool (wheel) in the upper right hand corner

2. Click on **Edit Settings**
3. On the right, select **Show** from Visibility pull down menu.

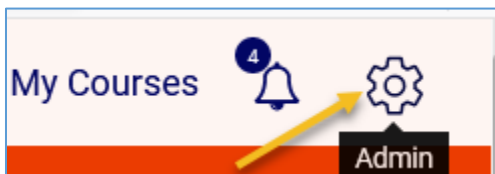

4. Go to the end of the page and click **Save and Display**.

### How to deny access to students in Moodle?

Log into Moodle and open your course section.

1. From within the course, click on the administration tool (wheel) in the upper right hand corner

2. Click on **Edit settings**
3. On the right, select **Hide** from Visibility pull down menu
4. Go to the end of the page and click **Save and Display**
